THE PROGRAMME

The Interreg Greece-Italy Programme is a bilateral and cross-border Cooperation Programme, co-funded by the European Union through the European Regional Development Fund (ERDF) and by the 2 member states through a national co-financing.

The overall objective of the Interreg Greece-Italy 2014-2020 Programme is to support strategic GR-IT cross-border co-operation in order to develop a dynamic economy which fosters smart, sustainable and inclusive growth with the goal to improve the quality of life for those living in the cross-border region, especially in times of economic crisis such as these.
