The project budget has been optimized according to the suggestions emerging throughout the meetings with the LBs and in compliance with the "Budget Optimization Methodological Approach" approved by the JMC. All PBs have better rationalized and reduced their budget in respect of the expenditure eligibility rules foreseen in the Programme and Project manual.

The budget of the 41 projects has been optimized by an average percentage of **10,17%**

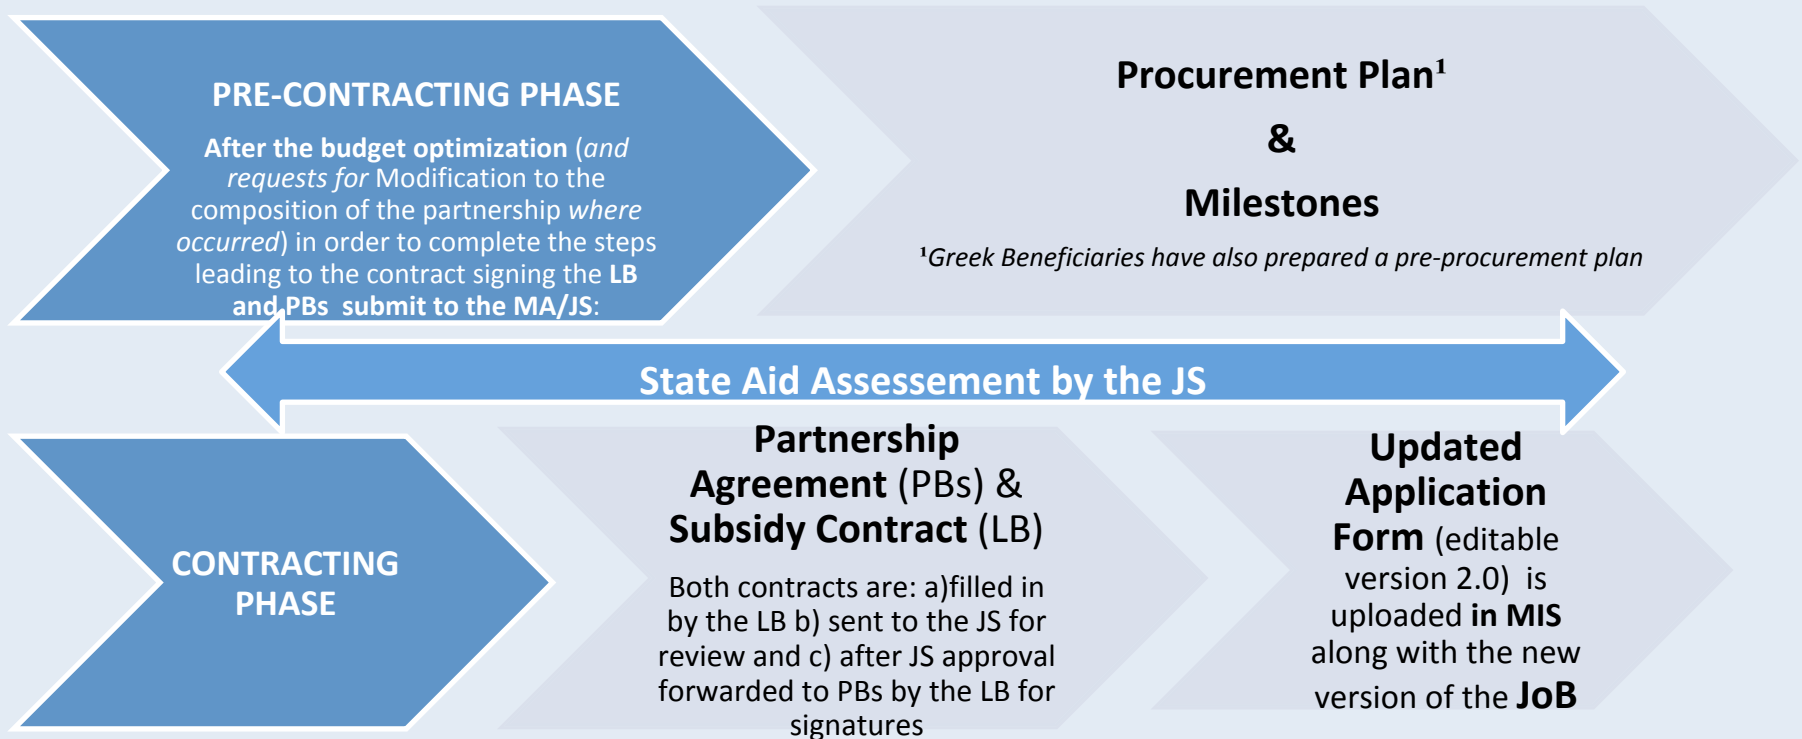

The New JoB "Justification of Budget costs" with the optimized financial resources for each project proposal has been submitted by the LB to the JS and approved by the JMC via written procedure.
