2. OVERVIEW OF THE IMPLEMENTATION OF THE COOPERATION PROGRAMME (Article 50(2) of Regulation (EU) No 1303/2013 and Article 14(3)(a) of Regulation (EU) No 1299/2013)

Key information on the implementation of the cooperation programme for the year concerned, including on financial instruments, with relation to the financial and indicator data.

This is the sixth Programme Annual Implementation Report which reports on the implementation process during the calendar year 2020. It was prepared by the Managing Authority (MA) with the support of the Joint Secretariat (JS). The implementation of the programme ran actively with the: 1) implementation of the 5 Targeted Strategic Projects 2) implementation of 51 ordinary projects 3) closure of 10 ordinary projects out of 51 projects 4) conclusion of the contracting phase and starting-up of 2 projects (PORTOLANES and SUSWATER) included in the 'reserve list' of the First Ordinary Call 3) launch of the 6 and 7 Targeted Call for Strategic Projects and related starting-up of the financed projects (AETHER and COOFHEA) 4) achievement of the expenditure target assigned to the Programme for the year 2020. Due to COVID 19 pandemic and the restriction measures imposed at national level (lockdown), all the ordinary projects asked a time extension (from 3 to 6 months) of the project duration. Most of them will conclude their activities in the year 2021.

Following the budget optimization meetings held in November 2019, the MA/JS concluded the contracting procedures (between February and April 2020) by signing the Subsidy Contract and Partnership Agreements for the remaining 2 out of extra 10 projects (PORTOLANES and SUSWATER). Right now, all the additional ordinary projects included in the Reserve List are running. Moreover, 10 out of 41 ordinary projects included in the first list of approved projects were concluded and the related procedures for the closure have been started up.

During the year 2020, the Managing Authority launched the Sixth and Seventh Targeted Calls for Strategic Projects:

- The Sixth Targeted Call has been approved with Monitoring Committee's decision of 22th June 2020 (written procedure No 44/2020) and the Call has been published on 7th July 2020. This Call, after consultations between the Regions, intended to respond to the necessity of protecting marine, coastal and maritime environment and the biodiversity. Within the the Sixth targeted one project (AETHER) was submitted and approved with a total budget of € 4.500.000 under the S.O. 2.2 – Improvement of joint management and governance plans for biodiversity of coastal and rural ecosystems, paying attention on natural resources and protected areas and development of environmental protection measures. The AETHER's Subsidy Contract was signed among the parties on 9th October 2020.
- In the framework of the European Commission's Coronavirus Response Investment Initiative (CRII) to flexibly respond to the rapidly emerging needs, the Managing Authority took the initiative to consider the case of Greece-Italy program's contribution to tackling the pandemic affecting both Countries and to helping civil protection system and citizens health with important equipment (i.e. face chirurgical masks, medical pump, lung ventilators,). After consultations with national authorities, the Seventh Targeted Call ("Emergency Call") was approved with Monitoring Committee's decision of 2nd July 2020 (written procedure No 45/2020) and it was published on 8th July 2020. Within the Seventh Targeted Call, one project was submitted and approved (COOFHEA) with a total budget of € 3.400.000 in the S.O. 1.1 – Delivering innovation support services and developing clusters across borders to foster competitiveness and COVID-19 emergency. The COOFHEA's Subsidy Contract was signed among the parties on 1st October 2020.

Therefore, in the year 2020 the total contracted budget on the Programme amounts to Euro 9.654.304,80 which is 8% of the Programme budget. More specifically:

- COOFHEA (€ 3.400.000) and AETHER (€ 4.500.000) Strategic Projects: Euro 7.900.000,00

- PORTOLANES (€ 877.915) and SUSWATER (€ 876.389,80) from the “reserve list” projects: 1.754.304,80

Following the approval of COOFHEA and AETHER projects, the second revision of the Operational Programme has been started up in July 2020 and it was accepted by the European Commission on 22th November 2020 by SFC. The changes referred both to the redistribution of the budget between the axes and to the introduction of new intervention codes and indicators as well the renaming of the special target. The revisions concerned:

1. increase the budget of the axis one (1) by 900,000€. A corresponding amount were transferred from the other axes and more specifically:

- from axis 2 the amount of 286,466€,
- from axis 3 the amount of 120,000€,
- and from the axis 4 the amount of 493,533 were transferred to axis 1 category of intervention 053 - Health infrastructure.

1. Insertion of a new category of intervention according to the Regulation (EU) 2020/460) 53;
2. Introduction of new indicators for the pandemic COVID-19

Furthermore, since the social distancing and/or lockdown in both countries affected the working methods of all the partners as well the implementation of the projects, the Managing Authority adopted some measures in order to facilitate, as far as possible, the activities of the Beneficiaries and the First Level Controllers.

Finally, during the year 2020 the Programming Committee of the Interreg Greece-Italy Programme 2021-2027 was set up and the Rules of Procedures were adopted. The first meeting was held on 26th June 2021 and the work for the stakeholder consultations and for the drafting of the new Operational Programme were started up.

A revision of the Technical Assistance Manual was proposed by the Managing Authority for the commitment of the funds from the TA budget line in order to cover the planning costs of the 2021-2027 Greece-Italy Programme and the costs for the Programming committee meetings. The revision was approved in July 2021. Furthermore, in October 2020 some minor modifications have been approved to the TA budget plan by the Monitoring Committee via written procedure. The modifications concerned 1) the financial division among the years; 2) the increase of the external expertise and the reduction of the staff for the Italian part, due the new type of contract of the JS core in Bari 3) the decrease of € 493.533,12 (€ 246.766,56 for the Greek TA and € 246.766,56 for the Italian TA) according the written procedures 53/2020 and 58/2020 (2nd revision of the Operational Programme).

At the end of 2019 a new Call for recruiting the JS members has been launched. In January 2020, 1 JS coordinator, 1 Administrative Assistant, 1 Communication Officer, 2 Project Officers and 1 Project Officer with greek legal expertise have been hired. In 2020, a Call for recruiting 1 JS Branch Officer located in Thessaloniki has been launched too.

In relation to the financial data, € 35.735.930,17 funds (ERDF + national counterparts) were certified and the last payment request was sent to the EC in December 2020 (31/12/2020).

3. IMPLEMENTATION OF THE PRIORITY AXIS

3.1 Overview of the implementation

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant problems and steps taken to address these problems
1	Innovation and Competitiveness	<p>The implementation of the PA is running started with the first call for ordinary projects where 16 projects started their activities in 2018 and additional 5 projects from the reserve list. Majority of the projects (13 out of 21) were approved under specific objective 1.1 and the remaining 8 under specific objective 1.2. The 16 projects started their activities in the second quarter 2018. For the 5 projects further financed (end of September 2018) the activities were started up at the beginning of 2019. 5 ordinary projects out of 21 concluded their activities in the year 2020, while the rest of the ordinary projects asked for time extensions of their activities. For what concerns the Targeted Call for Strategic Projects, € 10.000.000 have been contracted under S.O. 1.1 (Fifth call) for projects contributing to the definition of policies and promotion of pilot initiatives to support the development of the Clusters and incubation of innovative and creative SMEs. The Strategic project COOFHEA (7th Targeted Call) was financed in the year 2020 as reply to COVID 19 crisis. The project will support scientific research and will help greek hospitals in sharing the platform for telemedicine/remote assistance and for the hospital equipment (ventilators; beds; monitor; chirurgical masks etc..) The project started up in October 2020 with a total budget of € 3.500.00,00 and at the date of 31.12.2021 the rate of the budget absorption was 66%.</p> <p>The financial resources assigned to the approved projects under Axis 1 are € 30.936.832,67. The certified amount included in payment claims of the 2020 was € 12.025.111,14 (33,6% of the total of the payment claims of the 2020).</p>
2	Integrated Environmental Management	<p>Priority axis 2 has the highest number of running projects in the programme: 24. That reflects the high interest of the cross border regions in the topic covered by the 3 Specific Objectives included in the Axis, and more specifically the SO 2.1 with 17 projects financed, the S.O. 2.2 with 4 projects financed and the S.O. 2.3 (3 projects financed). 19 out of which the 24 projects started their activities in the second quarter of the 2018 whereas for the remaining 5 of the reserve list, the activities were started up in 2019. 4 out 24 ordinary projects concluded their activities within the year, while the rest of the ordinary projects asked for time extensions of their activities. For what concerns the Targeted Call for Strategic Projects, 3 projects started up their activities between July and September 2019 (for a total amount of € 32.915.600,00) with the objective to to support the development of thematic tourism based on natural ecosystems or thematic cross border sites or routes, involving community actors and the development of Coastal Heritage Network based on natural ecosystems or thematic cross border sites or routes, involving community actors (SO 2.1) and for project contributing to support the development of biodiversity and rural development based on coastal ecosystems, marine protected areas and their shared biological resources and elaborating joint protocols for natural and technological risk prevention (SO 2.2). With the 6th Targeted Call, a further Strategic Project has been financed in 2020 under the SO 2.2 with the objective to protect marine, coastal and maritime environment and the biodiversity. The budget assigned to the project was 4.500.000,00. The financial resources assigned to the approved</p>
3	Cross Border and Sustainable Transport System	<p>As far as projects under priority axis 3 are concerned, 6 projects were running in 2019: 3 under the specific objective 3.1 and 3 under the specific objective 3.2. 1 out of 6 financed projects concluded their activities in the year 2020, while the rest of the ordinary projects asked for time extensions of their activities. 		the Fourth call, € 17.250.000 have been contracted to the S.O. 3.1 for projects contributing to support the development of Smart Port and Multimodal Maritime Tourism and Fishery. The financial resources assigned to the approved projects under Axis 3 are Euro 29.402.543,07. The certified amount included in payment claims of the 2020 was € 5.447.367,79 (15,2% of the total of the payment claims of the 2020).
4	Technical Assistance	<p>During the year, the funds approved by the MC under Priority axis 4 were used for actions and services related to Programme management and implementation. In 2020 the TA expenditures concerned remuneration of the Joint Secretariat. No travel costs, daily allowances and accommodations and expenditures for the organization of events and MC meeting, training seminars were incurred. All the events (FLCs seminars and meeting between JS and Beneficiaries) were held through online platform due to COVID 19 pandemic. The Multi Annual Technical Assistance Plan was approved by the MC in Bari (September 2018) along with a detailed budget breakdown. In October 2020 some minor modifications have been approved by the Monitoring Committee via written procedure concerning 1) the financial division among the years; 2) the increase of the external expertise and the reduction of the staff for the Italian part, due the new type of contract of the JS core in Bari 3) the decrease of € 493.533,12 (€ 246.766,56 for the Greek TA and € 246.766,56 for the Italian TA) according the written procedures 53/2020 and 58/2020 (2nd revision of the Operational Programme).</p> <p>The certified amount included in payment claims of the 2020 was € 2.744.714,90 (7,7% of the total of the payment claims of the 2020).</p>

3.2 Common and programme specific indicators (Article 50(2) of Regulation (EU) No 1303/2013)

Priority axes other than technical assistance

Priority axis	1 - Innovation and Competitiveness
Investment priority	1b - Promoting business investment in R&I, developing links and synergies between enterprises, research and development centres and the higher education sector, in particular promoting investment in product and service development, technology transfer, social innovation, eco-innovation, public service applications, demand stimulation, networking, clusters and open innovation through smart specialisation, and supporting technological and applied research, pilot lines, early product validation actions, advanced manufacturing capabilities and first production, in particular in key enabling technologies and diffusion of general purpose technologies, as well as fostering investment necessary for strengthening the crisis response capacities in health services

4. SYNTHESIS OF THE EVALUATIONS

The Managing Authority has drafted the Evaluation Plan in compliance with the relevant regulatory framework and guidance documents which has been adopted by the Monitoring Committee in May 2017 under written procedure. As stated in the Art 54 (1) of the CPR as well as in guidance documents from the EC, the content of the evaluation plan concerns mainly the following areas:

- analysis of the effectiveness and efficiency of the Programme management system,
- the level of achievement of the set Programme targets, including the relevance, consistency and complementarity of the Programme objectives as well as the
- effectiveness and efficiency of the Communication strategy.

More specifically, these evaluations are focused on the assessment whether the Programme structure and its processes are functioning appropriately and if the inputs made are in proportion to the actual outputs.

In this framework, the Plan aims at capturing the effects of the intervention and, on the other hand it looks at how the programme is being implemented and managed in order:

- to provide a framework of the impact and implementation evaluations;
- to improve the quality of evaluations carried out during the programming period;
- to facilitate programme management and policy decisions on the basis of evaluation findings;
- to ensure that evaluations provide inputs for relevant annual implementation reports and other reports and for the 2020+ programming process.

First evaluation of the Programme was concluded in the year 2019 and the Deliverables consisted in the Methodology, Evaluation Report and a Final Evaluation Report.

Recommendations and findings emerged from the Final Report on the 1st Programme evaluation. The Evaluation Consultant estimates that more concentration of resources in innovation, competitiveness and internationalization would have greater impact in the prospects of the area. Also, the facilitation of tourism flows and the consequent mitigation of the effects to the environment can produce tangible benefits for the regional economies, in tandem with addressing climate change risks. The approved projects budget allocation of the 1st ordinary call for proposals seems to accommodate the above. Overall, the programme strategy is suitable to address the challenges of the cross-border area.

According to the approved Evaluation Plan of the Programme, impact evaluations are foreseen in the framework of the 2nd Evaluation during implementation in 2021 and the 3rd Evaluation during implementation in 2023.

In more detail, the content of the 2nd evaluation of the program consists in the investigation of the following three fields :

2a

2nd Evaluation during the implementation of CP EL-IT 2014-2020 Implementation Evaluation Relevance, Effectiveness, Efficiency and Appropriateness. Date of completion 2021. Budget: 20.000€

2b

Evaluation for the Communication activities of the CP EL-IT 2014-2020 Implementation Evaluation Effectiveness and Efficiency. Date of completion 2021. Budget: 7.500€

2c

Thematic impact evaluation on actions about Environmental Protection and Risk Prevention. Impact Evaluation Relevance, Effectiveness, Efficiency, Impact, Coherence, Added value. Date of completion 2021. Budget: 12.500€

In view of the 2nd evaluation of the program, the Managing Authority has already completed the procurement phase and within 2021 will select the contractor who will undertake the work of the evaluation.

5. ISSUES AFFECTING THE PERFORMANCE OF THE PROGRAMME AND MEASURES TAKEN

(a) Issues which affect the performance of the programme and the measures taken

In 2020, there were no specific direct problems which would endanger the performance of the programme. The ordinary projects continued with the implementation of their activities and further 10 projects from the reserve list started up their activities. The projects financed under the 6th and 7th Targeted Call started up their activities in due time, while the 5 approved strategic projects, despite they have started up their activities in due time, (July-September 2019), the level of implementation within the year 2020 is very low, mainly in terms of financial absorption.

The Managing Authority ensured that all the Programme authorities have been able to communicate smoothly. A series of communications means such as technical meetings, skype telecommunications, daily exchange of messages for resolving issues, have been adopted and will continue to operate throughout the programming period.

In order to reduce this risk of fund de-commitment (N+3 rules), a number of monitoring measures were proposed to speed up the reporting of project expenses during 2020 for ensuring higher spending and meet the financial targets of the Programme.

Among these measures, technical meetings were held remotely within the year with the aim to discuss all the issues affecting a correct and prompt implementation of the Strategic projects had registered a low absorption of the financial resources (less than 10% of the project budget). At the same time, a constant monitoring of the physical and financial progress was carried out by the Managing Authority/JS during the year 2020.

An updated Risk management Tool was approved by the members of the Risk Assessment and Management team for the year 2020. During the third implementation of the tool concerned, 34 risks were identified for all of which it was considered that the existing control measures are moving to an acceptable level and no additional measures are required. More specifically 2 of them are classified as high risk (based on the risk impact and likelihood of their occurrence), another 21 as moderate and the remaining 11 as low-risk hazards.

The two issues highlighted by high risk concern the delays in realization of the physical object of the projects and the inability to keep timetables from the partnership, which reflects delays in the timely delivery of the deliverables. The second has to do with the partial activation of the MIS, as there are still areas for the implementation of the projects for which their functionality has not been completed.

Anyway, Programme bodies are devoted to continuously ensure constant adaptation and maintenance of the MIS along the process of Programme implementation and provide technical support to users whenever needed. A further section dedicated to the Project Progress reports monitoring has been developed in 2019 and it will be active in 2020.

(b) OPTIONAL FOR LIGHT REPORTS, otherwise it will be included in point 9.1. An assessment of whether progress made towards targets is sufficient to ensure their fulfilment, indicating any remedial actions taken or planned, where appropriate.

11.3 Contribution to macro-regional and sea basin strategies (where appropriate)

As stipulated by the Regulation (EU) No 1299/2013, recital 19, article 8(3)(d) on the "Content, adoption and amendment of cooperation programmes" and article 14(4) 2nd subparagraph (c) "Implementation reports", this programme contributes to MRS(s) and/or SBS:

The Programme is covered by EU Strategy for the Adriatic and Ionian Region (EUSAIR) where it potentially plays an important role in exploiting synergies and has the opportunity to draw from lessons learnt, actively contributing to territorial integration.

Challenges affecting the Adriatic-Ionian Region that could be addressed by the Programme are presented as correlation between Programme objectives and the four thematic areas/ pillars of EUSAIR (Blue growth, Connecting the Region, Environmental quality and Sustainable tourism). All project outputs and results that have been delivering through implementation are strongly expected to make a positive impact.

More specifically, the Environmental quality pillar dealing with challenge of preserving, protecting and improving the quality of the environment relates to Programme PA 2 concerning the environment and biodiversity protection and ecosystem services, including through Natura 2000 and green infrastructure. Furthermore, the Sustainable tourism pillar dealing with challenge of increasing regional attractiveness by supporting sustainable development of inland, coastal and maritime tourism and preservation and promotion of culture heritage is completely in line with PA 2 aiming to contribute to the development of tourism as well as preservation and sustainable use of cultural and natural heritage. The Blue Growth pillar dealing with challenges referring to supporting the competitiveness of enterprises, including cluster development are related to Programme PA1 aiming at enhancing competitiveness and developing business environment. Finally, the Connecting region pillar dealing with challenges referring to enhancing regional mobility and developing and improving environmentally-friendly and low-carbon transport systems are related to programme PA 3. As for the Strategy cross-cutting aspects, "Research, innovation and SMEs development" and "Capacity Building", it has to be noted that capacity building is envisaged to be tackled through implementation of all Programme Axes, whereas research, innovation and SMEs development relates to Priority Axis 1 aiming at enhancing competitiveness and developing business environment.

Having in mind the potential contribution of the Programme to implement the strategy, a number of coordination mechanisms is envisaged to link the GR-IT Programme implementation to the EUSAIR, including:

- governance arrangements for ongoing mutual information exchange, coordination and joint planning in areas of common interest (regular meetings, participation of programme authorities in specific events, data collection with EUSAIR Facility Points to be set up under the Adriatic Ionian Programme etc.);
- involvement of stakeholders to ensure subsidiarity to the Strategy with the aim to serve as a collector of the civil society needs and put them to the attention of the decision makers;
- communication actions to increase the level of involvement of all stakeholders, but also to duly promote the Strategy as a useful cooperation tool.

- EU Strategy for the Baltic Sea Region (EUSBSR)
- EU Strategy for the Danube Region (EUSDR)
- EU Strategy for the Adriatic and Ionian Region (EUSAIR)
- EU Strategy for the Alpine Region (EUSALP)
- Atlantic Sea Basin Strategy (ATLSBS)

Actions or mechanisms used to better link the programme with the EUSAIR

A. Are macro-regional coordinators (mainly National Coordinators, Pillar Coordinators, or Thematic Steering Group members) participating in the Monitoring Committee of the programme?

Yes No

Name and function

Mr. Nicola Favia - Member of the MC and National Coordinator (Italy) of EUSAIR, Mr Firbas Ioannis member of the MC and National Coordinator (Greece) of EUSAIR

B. In selection criteria, have extra points been attributed to specific measures supporting the EUSAIR?

Yes No

a) Are targeted calls for proposals planned in relation to EUSAIR

Yes No

b) How many macro-regional projects/actions are already supported by the programme? (Number)

60

c) Were extra points/bonus given to a project/action with high macro-regional significance or impact? If yes, please elaborate (1 specific sentence)

during the qualitative evaluation (second phase) the assessors given points for the macro regional impact and/or significance

d) Other actions (e.g. planned strategic projects). Please elaborate (1 specific sentence)

Maximum 3 points were given to the project quality assessment if the proposal contributed to the macro-regional strategy of EUSAIR

C. Has the programme invested EU funds in the EUSAIR?

Yes No

Does your programme plan to invest in the EUSAIR in the future? Please elaborate (1 specific sentence)

In this phase we are working for the full implementation of the Programme. We will put that to the attention of the MC

D. Obtained results in relation to the EUSAIR (n.a. for 2016)

All project results that have been delivering through implementation are strongly expected to make a positive impact.

E. Does the programme contribute to the objectives and/or targets which are attached to each topic under the Pillars, as stated in the Action Plan? (please specify the objective(s) and target(s))

Majority of Programme specific objectives are compatible with EUSAIR priorities and are presented as

correlation between Programme objectives and the four thematic areas/ pillars of EUSAIR (Blue growth, Connecting the Region, Environmental quality and Sustainable tourism).
